

 **Glow Transfer**   
INK JET GLOW IN THE DARK HEAT TRANSFER

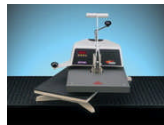

## **PRINTING INSTRUCTIONS**

- ◆ Print on the nonglossy (rough textured) side of the paper
- ◆ Print your image “mirrored” or “flip horizontal”
- ◆ Select “Plain Paper” as your paper setting and a medium resolution
- ◆ Do Not Handle the Paper while the ink is Drying.

## **HAND IRONING**

- ◆ *Remove all water from the Iron.*
- ◆ *Pre-Heat your Iron to the Highest Cotton Setting.*
- ◆ *DO NOT USE THE STEAM SETTING!*
- ◆ *Place a pillowcase on a hard, flat surface which can withstand High temperatures (such a Formica).*
- ◆ *Pre-press both the pillowcase and the article on which your transfer will be applied. (this is to remove moisture & wrinkles).*
- ◆ *Place the Transfer Image side Down on the garment.*
- ◆ *Iron Firmly over the entire transfer in a small circular motion for 2-3 minutes being sure that the center of the Iron (the sweet spot) covers all of the edges of the transfer.*
- ◆ *Allow transfer to cool COMPLETELY before peeling.*

## **HEAT PRESS**

- ◆ *Set the Temperature to 350 degrees Fahrenheit*
- ◆ *Set the Time to 15-20 seconds,*
- ◆ *Set the Pressure to Medium/Heavy (50#-60#).*
- ◆ *Pre-Press the Garment for 2-3seconds to remove moisture & wrinkles.*
- ◆ *Place the transfer Image side Down on the garment and press as recommended above.*
- ◆ *Allow transfer to cool COMPLETELY before peeling..*

*Note: Always Store the unused paper in a sealed plastic bag to protect it from Moisture.  
Wash according to garment label (avoiding bleach when possible).*

*Please test this product to determine suitability with your printer and ink. We are not liable for any damages or losses incurred as a result of failing to properly use materials or products.*
